						D								

Across

1. Satellite of a planet.[4]
3. Closest planet to the sun.[7]
6. System containing a sun.[5]
10. Third planet from the sun.[5]
11. Furthest planet from the sun.[5]
13. Direction of rotation of all planets except Venus and Uranus.[9]

Down

1. Red planet named after Roman god of war.[4]
2. Air surrounding a planet.[10]
4. Orbit of a planet around the sun.[10]
5. Period of ____ of earth is about 24 hours.[8]
7. Planets shine by ____ sunlight.[9]
8. Type of celestial body that the sun is.[4]
9. Largest planet.[7]
12. Number of planets in our solar system.[4]
