

Density

¹ D																			
E			² R	I	³ S	E	S												
N					I														
⁴ S	U	S	⁵ P	E	N	D	E	D											
I			E		K														
T			T				⁶ O												
Y			R		⁷ C		N												
		⁸ V	O	L	U	M	E												
			L		B				⁹ F										
				¹⁰ M	I	L	¹¹ L	I	L	I	T	R	E						
					C		E		O										
							A		A										
							D		T										

Across

- If a stone is immersed in a container of water, the water level ____.[5]
- If the density of a substance is the same as the density of the liquid in which it is immersed, the substance will be ____ in the liquid.[9]
- Density is mass divided by ____.[6]
- Unit of density is grams per ____.[10]

Down

- Measure of how close and how heavy are the particles of matter in an object.[7]
- Substances that are more dense than water will ____.[4]
- Liquid with a density less than water.[6]
- Density of water is ____ gram per millilitre.[3]
- Unit of density is kilograms per ____ metre.[5]
- Substance whose density is less than that of water will ____.[5]
- Very dense metal used in fishing sinkers.[4]
