Across

- 4. Cooler area on sun's surface.[7]
- 7. Visible surface of the sun.[11]
- 9. Type of heavenly body that the sun is.[4]
- 10. Gas that composes 1/4 of the sun.[6]
- 11. Main colour of the sun.[6]
- 12. Sunspot cycle is about ____ years.[6]
- 13. Distance between earth and our sun is 150 000 000 ____.[10]

Down

- 1. Coloured layer of the sun.[12]
- 2. Sun makes its energy by nuclear ____.[6]
- 3. Flame of hot gas.[5]
- 5. Centre of the sun.[4]
- 6. Alpha ____ is the next closest star apart from the sun.[8]
- 7. Looplike shape of hot gas.[10]
- 8. Most common gas of the sun.[8]
